General Specifications for the Bale Claw 5000VE

Moves two (4x4), three (3x4) or three (3x3) bales per load

Features of the Bale Claw 5000VE:

- Holds up to 5000 pounds of bales per load
- One cylinder operation with 14 large adjustable hooks (7 hooks per side)
- Four 27" tapered spears along the bottom for added support for soft or saggy bales
- Moves bales easily from an existing stack to a truck, shed or bagger
